Subject: Examination Ref: 01/RY/ARASNP

Hello Chris

Can you please forward the below note to Mr Yuille.

Thank You.

Dear Mr Yuillie

RE: Examination Ref: 01/RY/ARASNP

Thank you for your letter dated 24 April 2016.

You have requested further information and the consultation responses to support the Councils assessment that a full Strategic Environmental Assessment (SEA) is not required. Unfortunately the member of staff who undertook the screening process is no longer with the Council and current officers are unable to locate the consultation responses.

The Council is able to evidence that the relevant statutory consultees have been consulted on the draft versions of the plan at various stages. However the council is unable to evidence that the SEA screening report was consulted on or was published in line with the regulations.

The Council will take your lead on the next steps and are prepared to undertake a new SEA screening immediately if required.

Regards

Tom Ridley
