Dear Sir

Re Selby District Local Development Plan (LDF) - Wistow Mine Site

The Parish Council has recently received news from North Yorkshire County Council with regards a possible conflict of interest regarding the intended enforcement action against UK Coal. This relates specifically to the comments in CP9 which supports the reuse of existing buildings and infrastructure on the former mine sites.

This Parish Council supports the decision by North Yorkshire County Council to have the sites restored to agricultural use, as the original public enquiry inspector demanded.

Would you please arrange for the policy CP9 to be changed to reflect the councils view.

Yours faithfully

J W Wildash
