Hi Ryan,

Further to our previous correspondence, unfortunately I haven't managed to find our original response that Tom Ridley referred to below, however having had a quick scan through the screening document and also the Neighbourhood Plan Consultation document that we reviewed late 2016, early 2017, we don't consider that full screening is not required, however, this would not impact in any way the requirement for any individual development coming forward under the plan, from needing to demonstrate no unacceptable impact on the environment, in line with all relevant policy, directives and laws etc.

Let me know if I can be of any more help.

Kind regards

Nick

Hi Ryan,

Further to Tom's email below, my colleagues and I are trying to find the response that Tom is referring to. If we find it I will resend it over to you.

If not, I will take another look at the screening document.

Kind regards

Nick

Hello Bev

RE: SEA Screening SDC

As you will be aware we consulted you on the Pre-submission draft of the Appleton Roebuck Neighborhood Plan earlier this year. After the consultation we submitted the plan to the examiner. During the examination the examiner asked to see the SEA screening response from yourself. Unfortunately the member of staff who had been responsible for this has since left the council and we are unable to find the response. Are you able to look at the attached SEA screening and confirm you support a full screening is not required.

We would like responses back by 30 June 2017 which is 6 weeks in line with the regulations. If we fail to get a response we will assume you have no comments to make.

Please let me know if you require any further assistance.

Regards

Tom
