

Selby District Council SFRA

Settlement Sustainability Hierarchy:

Designated Service Village

Brayton

Preliminary Core Strategy Assessment

Development Strategy

Regional Spatial Strategy (RSS) - Proposed Changes (September 2007)

The RSS seeks to concentrate development in the Principal Town of Selby, with some development to meet local needs accommodated in Local Service Centre. Very limited development may also be acceptable in smaller settlements that are NOT designated Local Service Centre which have a good range of services .

Draft Core Strategy - Preferred Options (Working Draft September 2007)

Brayton is identified as a Designated Service Village with scope for the following forms of development inside development limits:
 Housing -100% affordable housing schemes (on both Previously Developed Land (PDL) and greenfield sites) and redevelopment of PDL for mixed (market and affordable) housing. Small scale affordable housing may also be acceptable on sites immediately adjacent to development limits.
 Employment - small scale development to meet local need.

Local Plan (February 2005)

Considered to have an excellent service base, and good access to employment opportunities by public and private transport. No sites allocated for residential development. Proposals for redevelopment of PDL and residential conversions supported in principle.

Flood Risk

The vast majority of the settlement of Brayton, falls within Flood Zone 1 (Low Risk), with only a small proportion (0.3% of the total area) to the north east falling within Flood Zone 2. The land to the north east of the settlement is predominantly Flood Zone 2. There are no other sources of flooding which affect the settlement of Brayton.
