Selby District Council SFRA

Settlement Sustainability Hierarchy: Designated Service Village

Kellington

Preliminary Core Strategy Assessment

Development Strategy

Regional Spatial Strategy (RSS) - Proposed Changes (September 2007)
The RSS seeks to concentrate development in the Principal Town of Selby, with some development to meet local needs accommodated in Local Service Centre. Very limited development may also be acceptable in smaller settlements that are NOT Designated Local Service Centre which have a good range of services.

Draft Core Strategy - Preferred Options (Working Draft September 2007)
Kellington is identified as a Designated Service Village with scope for the following forms of development inside defined development limits:

- Housing - 100% affordable housing schemes (on both Previously Developed Land (PDL) and greenfield sites) and redevelopment of PDL for mixed (market and affordable) housing. Small scale affordable housing may also be acceptable on sites immediately adjacent to development limits.

- Employment - small scale development to meet local need.

Local Plan (February 2005)
Considered to have a good service base. No sites allocated for residential development. Proposals for redevelopment of PDL and residential conversions supported in principle.

Flood Risk
A sizeable proportion (approximately 60%) of land within the settlement of Kellington falls within Flood Zone 3a (High Risk). There is also a history of other sources of flooding in the area. The flood risk area of Kellington is covered by a flood warning area and flood defences form the northern boundary of the settlement.
