North Duffield

Preliminary Core Strategy Assessment

Development Strategy

Regional Spatial Strategy (RSS) - Proposed Changes (September 2007)
The RSS seeks to concentrate development in the Principal Town of Selby, with some development to meet local needs accommodated in Local Service Centre. Very limited development may also be acceptable in smaller settlements that are NOT designated Local Service Centre which have a good range of services.

Draft Core Strategy - Preferred Options (Working Draft September 2007)
North Duffield is identified as a Designated Service Village with scope for the following forms of development inside defined development limits:

- Housing - 100% affordable housing schemes (on both Previously Developed Land (PDL) and greenfield sites) and redevelopment of PDL for mixed (market and affordable) housing. Small scale affordable housing may also be acceptable on sites immediately adjacent to development limits.

- Employment - small scale development to meet local need.

Local Plan (February 2005)
Considered to have an excellent service base and good accessibility for both public and private transport to employment opportunities. One site allocated for residential development. Proposals for redevelopment of PDL and residential conversions supported in principle.

Flood Risk
All land within the Development Limit boundary of North Duffield falls within Flood Zone 1 and therefore is at low risk of flooding. In addition no other sources of flooding have been identified in this area. However there are areas of medium (Flood Zone 2) and high flood risk (Flood Zone 3) in the surrounding area and development within the village should consider whether it has any impact on areas outside the development limit boundary.
